

Looking at the News with Col. Hugh Clark

READ this to your wife and run. Mrs. Peter Hecker of Buffalo, celebrating her golden wedding declares that the reason there are so many unsuccessful marriages is because wives haven't enough to do about the house to keep them employed.

It is dangerous to work too hard in hot weather, says a medical man. We bring this to the particular attention of fellows working by the day for the corporation.

Foreign conferees at London find it hard to accustom themselves to English week-ends which begin on Thursday and end on Monday night. Who knows but that the universal adoption of English week-ends would solve the problem by extending employment and increasing consumption. We have a notion to try it out.

Soviet diplomacy is singularly subtle and astute, says a cable. Occidentals are liable to forget that the Russian is an Oriental.

W. L. Mellon denies that he failed to pay two million dollars income tax. Speaking for himself personally, we don't deny any such thing.

The Limit of Credulity
He disbelieved most things he read. He doubted what the scriptures said. He questioned history's written pages. He mocked the words of ancient sages. Skeptical of all the news, Dubious of official views "I know far better," he averred, "You cannot fool so wise a bird."

Yet he, as credulous as a jay. Believed what he himself did say.

We are not expecting too much. The men who are trying to settle world affairs have not always been able to settle their own.

Up in the Port Arthur country, 1581 men were at work taking out pulpwood. Agitators, said to be Communists, got among them and there were several strikes followed by interference with the men who were willing to work. The camp was closed and the United States purchasers notified that the contract could not be completed. This incident gives one an inkling as to the reason why the old man still sticks around the corner—he is afraid the boys have not yet learned the lesson. Ordinarily a man who does not want to work does not mind other fellows working, but this does not apply to labor agitators.

Sir Philip Gibb says modern inventions have done nothing to bring the races together. A friend who follows them says it is utterly impracticable—that it would only clutter up the track and demoralize the pari-mutuels.

American delegates say they have a program which they will present at the proper moment and the proper moment we surmise is when they have decided what the program is.

The battle that is most generally celebrated—in fact the only battle that is celebrated year by year—was an insignificant affair as compared with Waterloo, Gettysburg or any of the major engagements of the Great War. If measured by the "butcher's bill," as Wellington thought Englishmen were wont to do, the battle of

Grade 1—Jenny Kugstra (honors); Shirley Matlock (honors).

Merchandise Valued at \$800 Stolen From Vulcan Stores

Burglars Make Break-ins Vulcan Supply Co. and Vulcan Dry Goods

Early Monday morning two Vulcan stores were entered by burglars and loot totalling \$800 was taken. Entry, check-up shows, was made first in the Vulcan Supply Co. hardware store by the breaking in of a window in the harness portion of the business; from here entrance was gained to the main store by the smashing of a door. The "jimmy" used for the break-in, was found nearby. Rifles, suit cases, silverware, razor blades, flashlights, batteries and other goods were taken to the value of \$100.00.

Among the goods taken at the hardware store was a lariar rope, with the aid of which the prowlers lowered themselves through a skylight into the Vulcan Dry Goods premises. At this establishment the stock of ladies', men's and children's wear was completely ransacked. Silk dresses numbering to thirty, two men's suits, boots and shoes, ladies' lingerie and silk stockings, shirts, belts and practically the best selection of all stock in the store was made by the thieves. Wm. MacKintosh owner of the business, estimated the value of the goods taken at \$700. Corporal Forsland, R.C.M.P., is investigating.

WEDDING BELLS

(From Weyburn Review)
Peacock—Osborn

A pretty wedding was solemnized at the home of the bride's parents, on Wednesday afternoon, when Emma Isabel, only daughter of Mr. and Mrs. H. A. Osborn, west of Weyburn, became the bride of Mr. Clarence Robinson Peacock of Vulcan, Alta., eldest son of Mr. and Mrs. O. H. Peacock of Calgary, Alta. Rev. R. Milliken, D.D., performed the ceremony.

Miss Freda Osborn, cousin of the bride, was the bridesmaid and Mrs. Holmes Peacock brother of the groom was best man. Following the ceremony a buffet luncheon was served to forty-four guests.

Mr. and Mrs. Peacock left by motor for Regina and Port Qu'Appelle where they will spend a few days, returning to Weyburn the first of the week to visit relatives for ten days before leaving for their home at Vulcan. The bride travelled in a pale yellow silk pique ensemble with corresponding accessories. On the return trip Mr. and Mrs. Peacock will visit at Swift Current, Medicine Hat, Banff and Calgary.

"Did Hamhocks take his misfortune like a man?" "Yes. He blamed it all on to his wife."

Betty and Billie Wright of Vulcan were guests at the Bastin home over the holiday.—Champion Chronicle.

Mr. and Mrs. W. Mawer of Brooks were guests at the home of Mr. and Mrs. J. W. Fox over the week end.

Mr. and Mrs. D. C. Jones left Sunday for Edmonton on a week's holiday trip.

J. Eastwood and son have returned from Wardner, B.C. where they have resided for the past year or two.

Mrs. W. Brown and family left Vulcan recently to take up residence at Sunnyside, Alta.

Mrs. E. Arney and family accompanied by Mrs. W. Little left on Sunday for a two week motor journey through the north-western States.

Miss Ethel Burns who has been on the teaching staff of the Wanham (Alberta) school for the past term, arrived home for the holiday on Wednesday.

During the first four months of this year, 10,167,515 pounds of branded beef were sold in Canada, as against 7,047,365 pounds in the corresponding months of 1932.

Miss Dorothy Marshall, who has been the teacher at Kirkcaldy school for the past term, has returned to her home in High River. Her pupils showed splendid reports on the year's work.

Word was received on Friday, July 7th of the death of Mrs. Rutten of Couer d'Alene. Mrs. Rutten has been ill for months. Her late husband passed away only a few months before her. She leaves to mourn four daughters and four sons and one brother. The burial took place Monday morning at Couer d'Alene at 10 a.m.

LOCAL ITEMS

Monarch Brand Pure Paints—Made in Alberta—Sold in Vulcan by J. T. Willard.

Mr. G. C. Collier received the sad intelligence of the death of his eldest brother, Albert, in England, last week.

Miss Basten has been re-engaged to teach the Thigh Hill school for the coming term.

Mr. and Mrs. Otto Kratz of Spokane, Wash., are guests at the home of Mr. and Mrs. A. J. Kennedy.

Sports wear for all the family at F. M. Anderson Co., Ltd. Buy your holiday needs before you leave on that vacation trip.

Miss Alice Madden of Winnipeg who has been visiting at the home of her sister, Mrs. D. Simington, left on Wednesday for an extended visit with relatives in the Peace River district.

Rev. J. N. Brunton will conduct the regular morning services at the United Church next Sunday. The evening service will be withdrawn. Everybody welcome and a large attendance requested at the morning service.

The residence of Wm. Peterson is this week receiving an application of paint that is of lighter color. Improvement is noted in the appearance of this one of Vulcan's many beautiful homes. Bert Innis is the man wielding the brushes.

Mr. and Mrs. T. B. Lebeau, Mr. and Mrs. F. M. Anderson and Mr. and Mrs. Wm. MacKintosh attended the celebration at Clarendon on Wednesday last in connection with the thirtieth anniversary of that town. All were high in praise of the event.

Mr. and Mrs. A. R. T. Harrigan and family left early last week for Vancouver, B.C., where they will reside. Mr. Harrigan has been one of the staff of three at the Vulcan high school for the past term. Friends wish the family the best of luck at their new place of residence.

A small fire broke out in the blacksmith shop of T. Lebeau on Tuesday evening of last week. The firemen called the equipment to the scene, but the service of the brigade was not needed. Hand extinguishers and a few buckets of water had the blaze under control in a few minutes.

Saturday was strawberry festival day in the hall of the United Church. The Clover Leaf Rebekahs were the sponsors and served patrons from early in the afternoon until late in the evening with luscious strawberries, cream and cake. All were pleased with the results.

Mr. and Mrs. W. D. Allan and family were campers on the Willow Creek over the week end. Dyce caught a fish of unknown pedigree and has the same on display at the store. Fish genealogy books have failed to reveal a name and perhaps it will join the ranks of the "Whatis-it."

The regular meeting of the Mayview U.F.A. was held at the home of J. Crick on Monday, July 3rd. It was decided at the meeting to have Saturday afternoons as a holiday during the month of July. Joe Richardson gave a report of the U.F.A. convention held in Vulcan recently. The next meeting will be held on Monday, July 17th at the home of Mr. Hunter.

Master Clair Recor is the winner of a brand new bicycle of popular make in a contest recently conducted by three business firms in Vulcan. Notification of the result of the contest was received by the lucky young boy from Edmonton, contest headquarters, where the votes were counted, on Monday. Clair wishes to thank everyone who through their votes, helped him win the prize. Firms conducting the contest were Pete McAsh's men's and boys' wear; Osbornes ladies' shoppe, and Love Motors.

With the closing of the Vulcan schools for the holiday months, the many teachers in employment have left for their homes and points where they will spend the vacation period. Principal Irvine left for Edmonton where he will be employed marking examination papers. Before leaving Mr. Irvine called at the Advocate and said he would prepare the final examination reports for both public and high schools at his earliest convenience and mail the same for publication in these columns. This report will be published as soon as received by the printer.

LIBERAL LEADER MAY VISIT VULCAN ON WEST TOUR

HON. W. L. MCKENZIE KING

Ex-premier of Canada and Liberal leader of the Dominion, who will probably visit Vulcan on his Western visit this fall. Reports reaching Vulcan on Monday from a source of authority in Calgary, said Mr. King would make Vulcan a place of call on August 15th.

One of students who signed the document that required the growing of a beard on the upper lip during the month of June, failed in his contract by shaving on the last day of June to attend a dance. Failure in the contract required a donation of \$1.00 to the Woods' Christian Home, Calgary. A receipt will be the necessary evidence required to prove this payment. How about showing this receipt around, Gordon?

Spots Win Double-header From Vulcan Softballers

Show Vulcanites How Softball is Played; Sunday Games Draw Fair Crowd of Fans

The White Spots, one of Calgary's fastest softball teams, motored to Vulcan on Sunday and played a double header exhibition with the locals at the municipal park. A fair assembly of fans turned out for both games and were pleased with the attraction although the scores trended to the one side.

Starting at 2:30, the first game was a washout as far as the locals were concerned and not once did they make the complete circuit of the bases. Till the fifth inning the Spots were held to a scoreless tie, then starting on errors made, they scored five runs in that fatal fifth, four more in the sixth, four in the eighth, and one in the ninth, making a total of fourteen.

Vulcan—McDonald C; Robson P; Wilson, Woodward, Clark, Ferguson, Johnston, Rutten and Lockhart.

White Spots—Luft C; Cook P; Kromm, Morasch, Smith, Stucert, Shoemaker; H. Luft and Gerlitz.

White Spots 000 054 041—14
Vulcan 000 000 000—0
The second game at 5:30 proved the best of the two. Vulcan made two changes in their line-up. D. Simington taking Rutten's centre field position and C. Fletcher taking the third base position held by Clark. Foss hurled for the visitors, taking the place held by Cook in the first game. The game was featured by two home runs by the visitors. Ending in a 6-1 victory for the White Spots, the summary of the score by innings tells the tale.

White Spots 100 111 02x—6
Vulcan 010 000 000—1
Robson starred for the locals in the pitcher's box, but lacked the support of his fellow players. Many snappy plays were made, but errors proved costly to the Vulcan group. J. Gerding umpired both games.

Large Attendance at Lake McGregor U. F. A. Picnic

LOCAL ITEMS

Born to Mr. and Mrs. Wm. Peterson at the Vulcan municipal hospital on Wednesday, July 5th, a son. Congratulations!

The final examination school reports have been received from Principal Irvine at Edmonton in today's mail and it is impossible to set-up the type matter for this issue. Next Wednesday's issue will have the report.

Manager Robson of the Vulcan Theatre announces summer schedule of shows. Shows will only be screened one day a week, Saturday, with a matinee at 2:30 and evening shows at 7:30 and 9:30 until further notice.

There has been on display in Vulcan for the past week, posters advertising the Bow Island Stampede late this month. Chief line in the advertisement is the one that reads, "The famous Vulcan Band will be in attendance all day."

O. A. Craig started the operation on Monday of a bus service between Vulcan and Calgary via Mossleigh and Carlsbad. Schedule provides for leaving Vulcan at 8:00 a.m. and arriving at Calgary at 10:30 a.m. On the home journey the bus leaves Calgary at 3:15 p.m. and arrives here at 5:45 p.m. The Empire Hotel, Calgary and Imperial Hotel, Vulcan are the terminals. Service is daily except Sunday. Complete schedules have been printed and are now on display.

Rain fell to the extent of .11 inches in the Vulcan territory last week. Practically all of this moisture fell late Wednesday evening and early Thursday morning, with a slight shower over the week end. Hot weather continued to cut the crop estimate and a very early harvest is indicated. Thirty per cent less than a normal crop is a fair percentage estimate. Grasshopper bait is still in demand at the mixing station and, according to P. D. Huxley in charge, ten days to two weeks will see the usefulness of the poison diminishing as the grasshoppers mature. At that time the Station will be closed.

LOCAL ITEMS

Mr. and Mrs. A. V. Stuckey and family of Pincher Creek were visitors in town last week.

Mr. and Mrs. R. Bystrom are visiting in the Parkland district at the home of Mr. and Mrs. G. Healand.

R. L. Elves and son Kenneth left last week for an extended vacation trip to the World's Fair at Chicago, and Eastern Canadian points.

Mr. and Mrs. R. H. Weale and family left on Tuesday morning for a motor vacation over the Banff-Windermere route.

Champion patients in the Vulcan municipal hospital include Henry Hiltz and Miss Dorothy Ditto. Both were appendicitis operation cases.

Ladies! See the newest styles in Swiss voile dresses at the F. M. Anderson & Co. Ltd., store. A smart, cool summer dress.

Miss Morris of Bellevue and Mr. G. McIntyre of Vulcan, were guests at the home of Mr. and Mrs. W. A. McIntyre on Sunday.—Champion Chronicle.

The Vulcan group of the C.G.I.T. left on Thursday of last week for a camping trip near Arrowwood. Mrs. E. Love is the leader in charge of the girls.

Vulcan visitors to the Calgary Stampede this week are many, and the biggest number made the journey on Monday to hear and see the Vulcan Citizens' Band in pageant parade that opened the event.

Vulcan Golf Club visited Champion on Wednesday and were successful in defeating the Champion club by a small margin. Best score for the evening was turned in by Ray Flynn, 39.—Champion Chronicle.

Mr. and Mrs. J. N. Johnston accompanied by Mrs. C. Wallace, Mrs. R. McElroy and Miss Eileen Clark were visitors Sunday at Black Diamond, guests at the home of Mr. and Mrs. M. Hanson.

Twenty-five Per Cent Increase Over Last Year's Attendance Record

One success follows another in the Vulcan area! July the 1st, a successful Dominion Day celebration at Vulcan; four days later, July 5th, a successful picnic at the Marquis Municipal Park, Lake McGregor, sponsored by the U.F.A. locals. The picnic, an annual event, was a splendid success and the weather was ideal bringing a crowd that increased the 1932 attendance record by twenty-five per cent.

The park gates were opened at 11 o'clock in the morning and the program that included athletic events, horse racing, softball and dancing, started at that hour and lasted until one o'clock a.m., the next day.

Athletic events for every member of the family were run off before the lunch hour. Following is a list of winners in this section of the day's program:

Ladies' Open Race—(1) Wainwright; (2) Mrs. Conkin.

Three-legged Races, 12 years and under—(1) B. Adair and S. Bittorf; (2) E. Watt and M. McIntyre. 15 years and under—(1) V. Witting and L. Bittorf; (2) F. McCallum and E. Watt. Open three-legged—(1) W.H. Bittorf and W. C. Bittorf; (2) R. McIntyre and L. Northcott.

Men's Race, 1/4 mile—(1) W. Earl; (2) P. Stull.

Bicycle Race—(1) E. Watt; (2) F. Mattat.

Boys Jumping, 12 years and under—(1) L. Adair; (2) R. Bertrand. 15 years and under—(1) H. Northcott; (2) B. Williams.

Broad Jump, open—(1) P. Stull; (2) F. Boyd.

Boys' High Jump, 12 years and under—(1) M. Eamor; (2) B. Deitz. 15 years and under—(1) E. Heather; (2) H. Northcott.

Men's High Jump—(1) J. Wyatt; (2) C. Burke.

Lunch followed the athletic events and two large refreshment booths supplied the needs of the picnickers. Business was brisk during the hour from 12 to 1 o'clock and both booths were completely sold out by 6 o'clock.

Afternoon activities were officially opened by Geo. Coote, M.P. for the Macleod Federal Riding, who was introduced to the assembly by Reeve Ward of the Marquis Municipal District.

Highlights of the afternoon were the horse racing, two baseball games and the softball tournament. Exciting to a high level were the horse races and the most thrilling of these were the Roman race and the relay race. A complete report of the race program with a list of winners is printed in another column of this issue.

Three teams played baseball during the day: Milo, East Milo and Armada. Armada drew Milo in the draw of play and East Milo received the bye. Milo defeated Armada and thus gained the opportunity of meeting East Milo. In the second encounter, East Milo proved the winners. Although the scores were not recorded, they were close and the play kept the supporters of each team in excitement until the final inning.

Softball was an attractive part of the program and large crowds were at hand to see all the games. Four teams entered in the tournament. The first game, between Red Cross and Sand Pit, resulted in a win for the latter in a 10-13 score. Vulcan met their undefeated rivals, Brant in the second game and the jinx that has followed the Vulcanites during every game they have played with the Brant team, still persisted. Final score, Vulcan 10, Brant 18. The Brant boys scored six runs in the first inning and never were in danger of losing the contest during its complete course, although their opponents played much better after that disaster.

Brant winners of the second game played Sand Pit, winners of the first game, in the final event. Scoring twenty-two runs to Sand Pit's thirteen, Brant showed the balance of strength in their favor. This was the last of the program at the grounds, and ended at 9:15 o'clock.

The crowd then assembled at the Oddfellows' hall, Milo, and the day closed with a dance sponsored by the

An Independent Weekly Newspaper issued every Thursday afternoon, at the office of publication, Vulcan Alberta. Subscription price per year, in Canada \$2.00; United States and other countries \$2.50. Advertising rates furnished on request.

CHARLES CLARK, Proprietor

TAX CONSOLIDATION

For the purpose of encouraging property owners to liquidate any arrears of taxes, and so to give better opportunity to those lands may have passed under the tax recovery act, to regain title or at least protect their property from sale, the provisions of the new tax consolidation act, passed at least session of the legislature, have now been brought into effect, and may be taken advantage of. The act provides for arrears of taxes of more than a year's standing, as at the beginning of 1933, to consolidated, and payments made in six annual instalments, each to be paid not later than December 15 in each year. The first instalment is to be ten per cent. of the consolidated arrears, the second instalment ten per cent., the third 15 per cent., the fourth 20 per cent., the fifth 20 per cent., and the sixth 25 per cent. Those wishing to avail themselves of the advantages of the act must apply in writing to the municipality before October 1. Owners of land whose taxes were consolidated under the acts of 1931 and 1932, may come under the new agreement by making application up to October 15. The instalments collected under the new system will be pro-rated among the various taxing authorities involved. The new act provides also for certain discounts on the payments of the instalments of arrears, as follows: for arrears of six years and more 26 per cent., arrears of five years, 22 per cent., of four years, 18 per cent., of three years 14 per cent., and of two years, nine per cent. These discounts will be computed, not on the total amount of the consolidation, but separately on each class of tax involved. That is, if the portion of the consolidated amount which is due on supplementary revenue is in arrears for six years, then the 26 per cent. discount applies, but if that portion of the total which applies to another class of tax is in arrears for only four years, then it would receive only 18 per cent. at present under the tax recovery act, by permitting them also to make an agreement to pay up arrears under the new act, and on completion of all requirements of the agreement, regain title to their lands. This applies to owners of two acres and more. A special additional discount of four per cent. is allowed those who can pay the entire consolidated sum in one payment, this discount being computed on the net amount of arrears due, after the other discounts have been deducted.

FOUR ABSOLUTES

Hugh Savage, editor of the Cowichan Leader, former C.W.N.A. president, and known to many in this town, has entered the political arena, on the platform of the four absolutes—absolute sincerity, absolute love, absolute purity, absolute unselfishness. Mr. Savage has become an ardent follower of the Oxford movement, and in consenting to become a candidate in the B. C. provincial elections, he has chosen to discard the customary trues of politicians, and places his new religious experience as the guiding motive in his political policies.

His newspaper is pledged to "religion, liberty and law." He states that he has no other platform than that of the Oxford movement, the four absolutes. He is convinced that the only remedy for the depression will come through the individual altering his views. "It is no use changing the government without changing ourselves," is his statement.

This allegiance to absolute honesty, absolute unselfishness, absolute love and absolute purity, is something hitherto untried in government. It would not be at all surprising if Mr. Savage were elected overwhelmingly. People have grown tired of the endless promises and assertions, the ceaseless railing at the opposition, the back-biting and meannesses. They have become nauseated with patronage and manipulation and "practical" politics. It does not detract from a man's influence that he may have no coherent plan for putting everyone to work overnight, or for building a road here, or closing institutions elsewhere. But citizens do want a man whom they can trust, who is awake to the terrible plight into which the majority of human beings have fallen. They want him to think in terms of humanity, not in terms of money or political advantage.

The Oxford standards if put into practice entail endless aspiration. Absolute love, absolute honesty, absolute unselfishness, absolute purity—could these ideals be carried out in the operation of government? Hitherto legislative love has been all too greatly confined to party and friends of party; honesty has been too often relative, bending to the superior demands of expediency; unselfishness has not been a conspicuous virtue and political purity has been a matter of conjecture and speculation.

It would undoubtedly be a world transformed if governments as well as individuals would adopt with Mr. Savage the ideal of the four absolutes.

A FARM PROGRAM

This year furnishes splendid proof of the contention often made on this page that one thing more needed than anything else to give permanency to our agriculture is a farm program.

In the farm the outlook was for a wet season. There was difficulty in getting the crop in the ground owing to the continual rain. Then things looked so good that a great many farmers instead of planting corn and a field of sweet clover to assure a feed supply, decided that it would be a wise thing to take a chance and stubble in another 100 acres. Now it has turned dry. The stubbled in wheat crop is pretty much a failure. The hay crop is poor. The pastures have dried up and the "take a chance program" has gone "haywire."

It's always a pretty safe bet to lay down a program and stick to it. It would not have taken long to plant 10 acres of corn and to prepare the land and sow a few acres of sweet clover without a nurse crop. And now, during the dry spell, these crops are growing along and for a good many farmers will mean a lot of difference in the supply of winter feed for the dairy cows and other farm stock next winter.

Get the farm program best designed to suit your farm and stick to it. It pays in the end.—Lethbridge Herald.

FRENCH AND ENGLISH PROGRAMS

In the short space of six months the Canadian Broadcasting system has made very good progress notwithstanding the campaign of abuse against the Commission. Radio nationalization is still in its infancy and we believe the majority of Canadians are in favor of National control of broadcasting and the majority are prepared to exercise patience. The debate in parliament with its silly campaign of abuse against Mr. Charlesworth, was undeserved, and leads to the conviction that private radio interests are still determined to get control. The opposition to French programmes comes only from an active minority. The Commission has announced its intention to maintain as a permanent proportion one-third French and two-thirds English programmes. This is based on the last census which showed that French speaking people comprise over one-third the population.

RUSKIN ON ACQUISITION

Sixty-five years ago John Ruskin said this: "The lawful basis of wealth is, that a man who works should be paid the fair value of his work; and if he does not choose to spend it today, he should have free leave to keep it, and spend it tomorrow. Thus an industrious person working daily, and laying by daily, attains at last the possession of an accumulated sum of wealth, to which he has absolute right. The idle person who will not work, and the wasteful person who lays nothing by, at the end of the same time will be doubly poor—poor in possession, and dissolute in moral habit; and he will then naturally covet the money which the other has saved. And if he then is allowed to attack the other, and rob him of his well-earned wealth, there is no more any motive for saving, or any reward for good conduct; and all society is thereupon dissolved, or exists only in system of rapine. Therefore the first necessity of social life is the cleanness of national conscience in enforcing the law—that he should keep who has justly earned."

But what are "just" earnings?

RESTRICTED DANCING

It is often difficult to understand the reason for certain legislation. A new provincial edict has gone forth which limits the hours of dancing in any entertainment hall to one a.m.—Mondays, Tuesdays, Wednesdays and Thursdays. On Friday night only the ban is lifted and dancing may be continued till the early hours if desired.

That means that all the dances through the countryside will be held on Friday nights, killing each other's chances for a crowd. Friday will be the one big dance night of the week. Since the majority of dances are in aid of some community activity, and are about the likeliest way of turning over a dollar for the softball club, the community hall and so on, the new amendment is viewed with mixed feelings.

Possibly the government is regarding the health of its people, particularly the younger people, and that is very good. But a much silder step toward safeguarding physical and mental health would be to provide these young people with more daytime jobs.

Admittedly late hours are not good. But it should also be considered that in the country especially, dances are not a particularly frequent recreation. People drive long distances, and want their money's worth in fun and dancing. They do enjoy the dances that are inflexibly limited to a closing hour. So every little district will stage its own dance on Fridays, and none of these events will be apt to collect the big crowds of other days.

Although this ruling has been in effect in cities for some time, it has never been felt that it should be enforced in the country, where dances are something of an event and held at the seasons and times most suited to farm work; where people drive long distances and go prepared to celebrate till they are all danced out, not till the government tells them to stop.

THE TURNER VALLEY ROAD

(From the High River Times)

The resolution passed by the Little Bow provincial constituency urging the completion of an all-weather road between High River and Turner Valley, indicates the attitude of outside districts toward this undertaking. It is likely that such a resolution would have the support of other constituencies all through Southern Alberta, because from every area of the South, fuel users take their trips to the oilfields and must feel that the miles of extra road round by Okotoks are a waste of time and money.

High River and this district have been charged with not being sufficiently aggressive in this matter. The possibilities of value not only to the town—but to the district also, have not apparently taken hold of every municipality and every individual. The burden of keeping up unceasing pressure for such a road is left in the hands of one or two without any large body of active support.

Every person should be interested in the advantage of a direct highway from this town to the South Turner fields. It would bring a tremendous amount of traffic through the town, and such traffic would inevitably mean more business activity. It would definitely establish High River as an entrance to the oilfields.

A further development might come in the establishment of a refinery at this point as a distributing facility, and this would mean greater population and additional business of every nature. It would mean to the country folk a large market for products and better shopping facilities.

This town at present does not share to any degree in the great amount of trade incident to the development of the fields due west of town.

The Minister of Public Works, in speaking to the resolution at the Little Bow meeting stated that there was no hope of immediate action. On the other hand he admitted the value and desirability of such a road, presenting financial stringency as the only obstacle.

The town and surrounding municipalities should keep this matter uppermost in their considerations.

The province and municipalities most nearly concerned might reach some agreement on the cost of construction which would permit of its commencement shortly.

Such opportunities require action and if passed up, do not always occur again.

HYDRATED LIME

Many farmers find that in the summer their stock tanks become coated with a slimy green matter, which is mostly caused by insects and other foreign matter. This can be remedied and the water kept clean and sterilized by putting a 25 lb. sack of Hydrated Lime in the tank, which removes all this matter. Buy a sack today!

MAY TAKE OVER RURAL PHONE LINE

Rural Telephone Lines Prove a Vexing Problem to Government

At the Little Bow U.F.A. convention, the Hon. O. L. McPherson was asked by electors present, if there was a possibility of some communities taking over the operation of their own branch lines of rural telephone. They realized the position of the telephone department and of the very unsatisfactory state the rural telephone business is in at present. It was thought that by reducing the monthly rate they might increase the number of subscribers. Mr. McPherson, in replying said, this was not in his department, but he suggested that they get into touch with the telephone department and present their case. He was confident good results might follow.

In this connection we observe that the Ghost Pine farmers have taken this matter up with the government, and in order to test the feasibility of the plan definite proposals have been submitted. The Ghost Pine lines were erected for a subscribers' list of 130 at a cost of around \$100,000. There are now only 18 phones left. Some 75 miles of line are still standing, but probably fifty miles might be profitably operated.

The Carbon Chronicle in its report, adds the following:

Unless something is done to improve the situation these lines will eventually be scrapped, therefore the government is prepared to take a loss and sell the property, in working order, at the same junk price at which they have been disposing of the material recently salvaged after last year's storm. This figures out for the fifty miles of line all complete, at about \$1000.00 on terms of half cash.

For the linking up with town central a charge of 75c per month each would be made. The cost of their own service might run to 50c making a total of \$1.25 per month for each subscriber.

The meeting decided in favor of the project and a committee to continue negotiations and interview possible subscribers was appointed.

WHEN TO FEED THE GRASSHOPPERS

The Alberta department of agriculture draws the attention of farmers using grasshopper poison bait to the following, in connection with the spreading of it: Grasshoppers feed only when the temperature is above 70 degrees and the sun is shining. These conditions usually occur about, or after 10 a.m. Ordinarily bait should be spread from 8.30 a.m. to 10.30 a.m. on warm, sunny days; on exceptionally hot mornings commence spreading one hour earlier. Both bait and labor are wasted if spreading is done on cold days or on cloudy days. Dry bait does not attract grasshoppers as readily as wet bait, so do not give it an opportunity to dry out before grasshoppers start to feed.

MILO NEWS

J. D. Spafford has left for Ontario where he will spend his vacation.

Many Milo residents attended the celebration at Vulcan on July 1st.

Miss Florence Bertrand of California is visiting at the home of her brother V. J. Bertrand.

Friends of Miss Davidson will be pleased to know that she is improving and has gone to London, Ont., for a two-month vacation.

The school meeting held for the purpose of electing two new trustees was held at the school. The two new trustees selected were Mr. J. M. Thompson and Mr. Thomas.

The Baptist Sunday school held a picnic at the Clung bridge on Monday last. There was a well planned programme of sports and plenty of ice cream and lemonade for refreshments.

Chivarees have come to be an epidemic in the Milo district. Thursday night young and old gathered together to chivaree Mr. and Mrs. Lawrence Phillips.

Lawrence took the crowd to the restaurant where he treated them. The next night they travelled to the home of Mrs. Beckner where they attacked the newly weds, Mr. and Mrs. Bud Beckner. The evening was spent in games after which lunch was served. Both these chivarees were taken in good part and everyone reported a good time.

Cloverleaf Rebekah lodge paid an official visit to Milo Roseleaf Rebekah lodge on Thursday evening, when Sister McIvor, district deputy president and staff installed the following officers: P.N.G., Sis. Martin; N.G., Sis. Phillips; V.G., Sis. McLean; R.S. N.G., Sis. Winnie Wainwright; L.S.V. G., Sis. Hampton; Conductor, Sis. Florence Wainwright; Warden, Sis. Williams; pianist, Sis. Shore; Chaplain, Sis. Leverett; Rec. Secretary, Bro. Phillips; Inside Guardian, Bro. Ivors; Outside Guardian, Bro. Leverett.

Looking at the News

the Boyne must have been disappointing, for the vanquished lost only fifteen hundred men and the victors five hundred. But it was decisive in that it put an end to James' attempts to win back the throne with Irish and French assistance.

Although it is celebrated only by Orangemen, yet the fact is that the news of James' defeat was received with joy at the Vatican, because it checked the ambitions of the King of France. It was celebrated in Paris too but for another reason, viz, the false report that William had been killed by a cannon ball. The little battle started a whole train of celebrations and the end is not yet.

King William was a curious character. He was dull, morose, phlegmatic, asthmatic. He was unpopular in England because he spoke Dutch and surrounded himself with Dutch advisers and favorites. In field and camp he was a different man—no sign of sickness, alert, energetic, his eyes aflame with the light of battle. Sarsfield said the Irish and French would have won if they could have swapped leaders. James, on the other hand, was inept or unfortunate whether in peace or in war. He saw nothing shameful in the circumstance that he was among the first to bear abroad the news of his own defeat.

In his younger days as Duke of York he must have been a better man for Pepys who had a good deal to do with him spoke highly of his zeal and diligence. Religious fanaticism ran away with his judgment and he lived to see himself bereft of his throne and deserted by his two daughters, one of whom was married to the "usurper."—William.

THE DANDELION ON YOUR LAWN

Methods Which Prove Most Effective in Wiping Out Persistent Visitor

The dandelion was cleverly called "the tooth of the lion" in the original French from whence comes the name. It has long deep, tapering roots which, if broken off, have the capacity to form new leaves and plants. Once thoroughly established on a lawn, dandelions are most difficult to eradicate. To the distracted home beautifier, they are most difficult to eradicate. To the distracted home beautifier, they are indeed like lion's teeth chewing up the beloved handiwork.

There are two effective ways of extirpating the weeds and both require considerable time and patience. The first is by trying to poison them with sprays; the second, and most efficient in the long run, is killing them with kindness, that is, by the use of fertilizer.

Many of the leading horticulturists are definitely in favour of the fertilizer system and recommend the stimulation of the grass by repeated applications of sulphate of ammonia. That would be about four applications at least during the season, the first application being made very early in the spring, using about eight pounds of sulphate of ammonia on 1,000 square feet of lawn. It is well to mix the fertilizer with a certain amount of soil in order to get uniform application, and should be applied when the grass is damp.

WORK FOR 150 MEN

Approximately 150 men will obtain work from the Calgary district on the highways, Calgary to Bowden, Midnapore to Turner Valley, and Okotoks to Turner Valley, as soon as tenders have been awarded by the government to contractors for this work, according to F. J. Graham, resident engineer for the provincial government, Monday. Sealed tenders will be received by the department at Edmonton up to 12 o'clock noon, Monday, July 10. The work will consist of graveling the highways.

There are sixty different kind of mosquitoes in Canada.

FEEDING THE GRASSHOPPERS

Bait Distributed at Mensinger Farm

Illustrated in above cut is two views of the grasshopper bait distributor used on the 3000 acre Mensinger farm east of Vulcan. The machine consists of a blower and a four cylinder motor to drive it at a high speed. Transportation of the machine over the land is made by truck, travelling from 5 to 15 miles per hour. A man sits at the machine and feeds the poison through the hopper by hand to get the desired amount to the acre. (See back view). The poison can be spread very evenly in this manner and as little as 2 or 3 lbs. per acre can be spread, states Mr. B. J. Mensinger, operator of this most extensive seeded area in the Vulcan district. The blower throws the bait a distance of sixty feet from the machine and distribution can be made on either side of the truck by manipulation of the elbow pipe. In a year like this, when an extensive campaign is being conducted against the grasshopper, the machine described can be used to great advantage in the saving of time, labor and bait.

FIELD DAY AT LETHBRIDGE JULY 15

Dominion Experimental Station Opens Doors to Southern Alberta Picknickers

On July 15, the Dominion Experimental Station at Lethbridge is holding a Field Day and picnic to which everyone is invited. The occasion promises to be one of the most successful in years.

The Hon. Robert Weir, Minister of Agriculture for the Dominion and the Deputy will both be well worth hearing while several divisional officers, including Dr. L. E. Kirk well known for his work with Crested Wheat Grass and Mr. Geo. E. Muir, Dominion Animal Husbandman will all have messages of timely interest.

The speeches will be held in the shade of some of the larger trees on the farm lawn and electrical amplifiers are being installed to ensure easy hearing for the large gathering anticipated.

Both country and town people are invited and farmers particularly are urged to come early enough for the inspection of experimental work starting at 10:00 a.m.

Those who come for the day will want to bring lunch. Coffee, as well as milk for the children, will be provided by the Station at noon and again in the evening.

Mr. and Mrs. W. C. Rodney were Calgary visitors on Thursday.

KIRKCALDY W. I. ENTERTAINS

On Friday, July 7th, the Kirkcaldy W.I. held their regular monthly meeting at the Kirkcaldy hall and entertained Thigh Hill W.I. Only fifteen minutes was given to the meeting which was followed by a short program.

The first on the program were a few community songs, after which a welcome was sung to the grandmothers present, this being "Grandmother Day" in the Institute. About ten grandmothers were present. A sketch was then given showing an old time grandmother teaching her granddaughter to knit, followed by a modern grandmother in the act of teaching her granddaughter an up-to-date sport.

Miss Dorothy Mawer of Brooks, rendered a solo "In the Valley of the Moon." Another sketch was given entitled "Seven Women at a Quilting Bee." The conversation took the form of songs. Mrs. Boose gave a paper on Pioneer Days.

After the close of the program a supper was served to about thirty-five women. The table, the length of the hall, was prettily decorated with cut and paper flowers. Everybody present enjoyed the afternoon.

U. F. A. PICNIC SUCCESSFUL

(Continued from Page 1)

U.F.A. Music was supplied by an orchestra under the leadership of "Banjo" White, a former of the Len Davis organization. At 1 a.m. the singing of "God Save the King" closed a pleasant and enjoyable day, packed full of sport and fun for everyone.

The committees in charge are to be congratulated on the success from year to year that is attained by the event and everyone looks forward to the next season when a sports program of the highest order can be assured.

CARD OF THANKS

The members of the Johnny Canuck Jr. U.F.A., wish to thank patrons of their tea and home cooking sale. Thanks also extended to parents who so kindly contributed.

SAVE

on the day you buy it and every day you drive ...

Chevrolet Master Six Special Sedan, 1937, delivered, fully equipped, at factory, Oshawa, Ont. Freight and licence extra.

WHEN you're admiring Chevrolet's Fisher No-Draft Ventilation, smart styling and other ultra-modern features—don't forget that here's a car that's economical on everything. It gets right down to this business of saving, on the very day you buy it—with the lowest purchase price of any six-cylinder closed car! And it keeps on, week after week, with one steady succession of important savings—as long as you drive the car: Fill up the fuel tank of your Chevrolet, and you won't have to fill

it again for hundreds of miles. Put five quarts of oil in the crankcase, and the chances are those five quarts will still be there when you change your oil again. As far as upkeep is concerned—Chevrolet has the best reputation of any low-priced car, for a long life of trouble-free performance. No other automobile can point to all these economies, and back them up with proof. Because no other is designed, engineered, built and priced to save you money in so many ways—and save you so much!
